

XM satellite radio provides me with a variety and quality that is not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve a set forth by my 1st Amendment right which states that congress shall make no law respecting the freedom of speech. I benifit greatly from listening to satellite radio as I am sure the rest of the millions of Americans who choose pay for the service are. This Country was founded on the principles of freedom and the ability to excersise it. Will the FCC be portrayed as a patriot on this issue? Do the right thing.
